Experimental Social Psychology. Vol. 7, 1974. Exerpts. This paper explores how our physical appearance influences our relationships with others. The authors feel that research into physical attractiveness has been lacking because sociologists have disregarded is as an important variable or have been uneasy in exploring the deterministic consequences of beauty. Berscheid & Walster: Physical Attractiveness Advances in Experimental Social Psychology. The set of journals have been ranked according to their SJR and divided into four equal groups, four quartiles. Q1 (green) comprises the quarter of the journals with the highest values, Q2 (yellow) the second highest values, Q3 (orange)

the third highest values and Q4 (red) the lowest values. The SJR is a size-independent prestige indicator that ranks journals by their 'average prestige per article'. Advances in Experimental Social Psychology In this chapter we describe the origins, assumptions, and current conceptualization of the theory, and detail the empirical findings that MFT has made possible, both within social psychology and beyond. Wikipedia Ostracism means being ignored and excluded by one or more others. Despite the absence of verbal derogation and physical assault, ostracism is painful: It threatens psychological needs (belonging, self-esteem, control, and meaningful existence); and it unleashes a variety of physiological, affective, cognitive, and behavioral responses.
