Testing - Methodology and
Management Issues | Gerald

... Diagnosis. HIV can be diagnosed
through blood or saliva testing.

Available tests include:

Antigen/antibody tests. These tests
usually involve drawing blood from
a vein. Antigens are substances on
the HIV virus itself and are usually
detectable — a positive test — in
the blood within a few weeks after
exposure to HIV. HIV/AIDS -

Diagnosis and treatment - Mayo
Clinic The continuing high level of
concern among health professionals
and the public about issues related
to AIDS is reflected in this volume
on testing for AIDS and related
viruses. The book has been written
to offer practical advice to those

positive, the laboratory will usually conduct follow-up testing on the same blood sample as the initial test. HIV Testing | HIV/AIDS | CDC HIV testing is usually a two-step process. The first step is to test for HIV-specific proteins (antibodies or antigens) in blood or saliva. If the test is positive, a second test called a Western blot is done to ensure that the first result was correct. If both tests are positive, the chances are >99% that the patient is infected with HIV. HIV Test Types & Accuracy of Results of HIV Testing Kits Recommendations for Case Management Collaboration and Coordination in Federally Funded HIV/AIDS Programs, CDC 2008. Describes the use of case management in different settings,

has access to essential prevention and treatment services. Where patient-centered care is the norm. Where new HIV cases are rare and an AIDS diagnosis is a thing of the past. AIDS Free Pittsburgh The management of HIV/AIDS normally includes the use of multiple antiretroviral drugs in an attempt to control HIV infection. There are several classes of antiretroviral agents that act on different stages of the HIV life-cycle. The use of multiple drugs that act on different viral targets is known as highly active antiretroviral therapy. HAART decreases the patient's total burden of HIV, maintains function of the immune system, and prevents opportunistic infections that often lead to death. HAA Management of HIV/AIDS - Wikipedia Continued. A
