BPMN 2.0 is the industry standard diagramming language for business process models. The meaning of the shapes and symbols is defined by a specification, independent of the tool employed. But creating models that communicate the process logic clearly and completely demands more than a dictionary of shapes and symbols. BPMN Quick and Easy Using Method and Style: Process ... This class teaches students how to communicate process logic clearly through BPMN diagrams: the diagram elements they need in practice, how to use and label them correctly, and how to create models that are structurally correct. Learning to create "good BPMN" - models that communicate the process logic clearly, correctly, and consistently through the diagram - does not require BPMN Method and Style Web/On-Demand Training and ...
