and effective surgical and prosthetic protocol for immediate function (within 2 hours) of four Brånemark System implants ... "All-on-Four" immediate-function concept with Brånemark ... Now there is an alternative: The Brånemark System Zygoma Fixture. Due to extreme bone loss in the maxillary molar regions, patients would normally have needed bilateral posterior bone grafts. This treatment would have required additional surgery and prolonged treatment time. Dr. Higuchi, Diplomate of the American Board of Oral and Maxillofacial Surgery, states "The Zygoma fixture is a predictable source of implant anchorage for the posterior upper jaw which often minimizes or eliminates ...
