... Revision. BS ISO/IEC 27005:2011

is currently being revised to fully

align with the new edition of ISO/IEC 27001, BS ISO/IEC 27001:2013.

Although the latest edition of ISO/IEC 27001 has significantly revised risk management requirements when compared to the 2005 edition, most of the practical advice and examples within BS ISO/IEC 27005:2011 is equally applicable to an ISMS built using the ... BS ISO/IEC 27005:2011 - BSI Group Status of the standard. ISO/IEC 27035 replaced ISO TR 18044. It was initially published in 2011 as a single standard then revised and split into three parts, later adding a fourth: ISO/IEC 27035-1:2016 Information security incident management - Part 1: Principles of incident management. ISO/IEC 27035 Security incident

is the foundation of this multipart International Standard. It presents basic concepts and phases of information security incident management and combines these concepts with principles in a structured approach to detecting, reporting, assessing, and responding to incidents, and applying lessons learnt. ISO - ISO/IEC 27035-1:2016 - Information technology ... ISO/IEC 27031:2011 describes the concepts and principles of information and communication technology (ICT) readiness for business continuity, and provides a framework of methods and processes to identify and specify all aspects (such as performance criteria, design, and implementation) for improving an

organization's ICT readiness to ensure business continuity. ISO - ISO/IEC 27031:2011 - Information technology ... ISO/IEC 27035:2011, Information technology — Security techniques — Information security incident management .
