A specimen is cataloged by the physical process of entering its associated data in the relevant database, archival card catalog, or ledger. Even if the specimen itself is later lost or destroyed, the catalog entry remains as a permanent record of the original specimen. American Museum of Natural History - The Paleontology ... Francis Walker (31 July 1809 - 5 October 1874) was an English entomologist. He was one of the most prolific authors in entomology, and stirred controversy during his later life as his publications resulted in a huge number of junior synonyms.. Walker was contracted by the British Museum between June 1848 and late 1873 to catalogue their insects (except Coleoptera). Francis Walker (entomologist) - Wikipedia Literature on US Treasury Department specimen books is very scarce. An auction record from 1891 described a BEP specimen book with 103
