Development Goal 12: Responsible
Consumption & Production
Responsible Consumption and
Production is a key goal for the
chemistry community. Chemical
products help improve the quality
and efficiency of production
processes across a wide range of

industries, thereby improving water stewardship efforts and energy efficiency. Chemistry & Sustainable Development Goals - American

... Chemistry for Sustainable

Development is a collection of selected papers by participants of the International Conference on Pure and Applied Chemistry (ICPAC 2010) on the theme of "Chemistry for Sustainable Development" held in Mauritius in July 2010. In light of the significant progresses and challenges in the development and implementation of green and sustainable chemistry, this volume reviews the recent results generated by a more efficient use of resources to minimize carbon

Development

sustainability in the development of our society is the promotion of a sustainable chemistry, in research and industrial production. Under the name of green chemistry (or in Europe also sustainable chemistry) a lot of effort has been undertaken to make future chemistry less poisonous and less hazardous. Sustainable development and green chemistry in chemistry ... Green chemistry: a tool for the sustainable development of the chemical industry EFFICIENT SYNTHETIC ROUTES. Most current chemical production processes lack efficiency in using feedstocks and produce... GREENER AND FUNCTIONAL SOLVENTS. Huge amounts of toxic, flammable and volatile organic solvents ... Green chemistry: a tool

for the sustainable development of ... Environmental chemistry is a fast developing science aimed at deciphering fundamental mechanisms ruling the behaviour of pollutants in ecosystems. Applying this knowledge to current environmental issues leads to the remediation of environmental media, and to new, low energy, low emission, sustainable processes. Environmental Chemistry for a Sustainable World Find out how ACS is shaping the future of sustainable chemistry and learn ways to get involved. As the world's largest society of scientists, the American Chemical Society recognizes the importance of chemistry in improving people's lives and ensuring the well-being of the planet. Chemistry &

Sustainability - American Chemical Society Chemists try to improve agriculture and industrial processes to provide new products that allow humans to meet their needs. It is essential that this is done in a sustainable way. This means that... The Earth's resources - Sustainable development - AQA ... Title: How chemistry can help meet the UN's sustainable development goals Author: Anthony M. Noce, Chair, ACS Committee on Environmental Improvement * Send Email To: Enter the valid email address. How chemistry can help meet the UN's sustainable ... Green Chemistry and Sustainability. Green chemistry, which was established about two decades ago, has attracted much attention. It reflects the efforts of academia and
