Climate Change And Armed Conflict Climate-related hazards, such as droughts, can cause economic shocks to agricultural communities, which may heighten the risk of armed conflict, according to a new Stanford-led study. (Image credit: Pablo Tosco/Oxfam) Does climate change cause armed conflict? | Stanford News This book examines the consequences of climate change and argues that it has and will produce two types of different types of conflict: 'cold wars' and 'hot wars'. Cold wars will occur in northern and southern latitudes as warming draws countries into possible conflict due to expanding interests in exploiting new resources and territories (inter-
