way to have both ... Where to Focus for Portrait Photography 8. Focus On The Eyes. Portrait photos look best if the eyes are in sharp focus. This improves the sense of eye contact between the subject and viewer, creating a powerful and engaging photo. So, when shooting portraits, especially with a shallow depth of field, make sure you set your focus point carefully. 8 Portrait Photography Tips Every Photographer Should Know Focus On Living. Home. Our Mission. About Us. Community Integration. Day Programming. Services. Job Skills Focus On Living Consider rephrasing "focus between subjects", because on the image, between two subjects there is usually background and focusing on that will throw both subjects out of focus. I know

that's not what you meant, but I have the feeling it is easy to misunderstand it that way. How to achieve sharp focus on two subjects in a portrait ... The two people will (usually) be the same distance from the camera, so focus on either of their eyes. You can always stop down the lens a little, f/8 would give you more depth of field, if using the very lowest aperture (biggest hole) then your depth of field will be tiny, this is when you'll get problems like this. Where do you focus on when making a portrait of two people ... Banish's portraits rivet and resonate. In the tradition of Dorothea Lange and James Agee, Focus on Living documents social and psychological phenomena in a way that makes readers look at what they otherwise

might avoid—and in the looking, see with fresh eyes."—Jeanne Braham, coauthor of *Starry, Starry Night: Focus On Living* | University of Massachusetts Press

A living room can serve many different functions, from a formal sitting area to a casual living space. As you start browsing furniture, decorating and wall ideas for your room, think about the space's desired purpose and focus on a few staple items, such as a comfortable sofa and a coffee table, then choose the rest of the accent furniture and wall decor accordingly. 75
