meeting the access needs of nearby

properties. The urban highway designation is a very broad classification as urban arterials can traverse many different areas and each area has unique attributes that affect the appropriate design. URBAN HIGHWAY DESIGN (NON-FREEWAY) - Oregon This implies that from the urban planning field a set of visions (described or visualised) rather than empirically supported theories are available. These urban planning visions were extensively reviewed by Smith et al. (1997) resulting in a summary of quality and need principles that an urban environment should fulfil. Important elements are ... ... More than 50% of people now
live in urban areas. By 2050 this

Urbanization is associated with increased levels of mental illness, but it's not yet clear why. Through a controlled experiment, we investigated whether nature experience would influence rumination (repetitive thought focused on negative aspects of the self), a known risk factor for mental illness. Nature experience reduces rumination and subgenual ... Regular maintenance can have a significant environmental impact—particularly in the case of bridges, where closure can result in traffic jams and lengthy detours. Higher cost but lower maintenance components and transfer of structures to lower-grade sites are possible answers which, until now, have been difficult to
