Buy a discounted Paperback of Looking Through a Telescope online from Australia's leading online bookstore. Help Centre Looking Through a Telescope, Rookie Read-About Science by ... To see it through a telescope, you need advanced equipment and be under a perfectly black sky. You will also have to know precisely its location and the stars around it, as it can be very easy to confuse the planet with background stars. With binoculars, the problem remains the same. Observe Every Planet Through A Telescope | Stargazing Guide You can even see it with the naked eye (as you can Mercury, Venus, Mars and Saturn...and Uranus if you're really sharp-eyed), so viewing Jupiter through a telescope can be extremely satisfying. When Jupiter comes into focus for the first time through your telescope, the first thing you will notice are the bands. Which Planets can I See Through a Telescope? The Stelvision telescope simulator is a

great online resource for checking out what you might be able to see through any telescope. At first, it might shatter some illusions where you are expecting to see Saturn close up like a sci-fi movie. That's not really how it works with amateur astronomy. Are Telescopes Expensive? - Astronomy Rookie Newcomers to astronomy and casual stargazers are sometimes disappointed by their first glimpses through a telescope, especially when looking at deep-sky sights like star clusters, galaxy, and nebulae. They look through the eyepiece, see a dim smudge without much detail or any color, and conclude that one dim smudge looks like all the others. How to Look Through a Telescope - Cosmic Pursuits Find many great new & used options and get the best deals for Rookie Read-About Science Ser.: Looking Through a Telescope by Linda Bullock (2003, Hardcover) at the best online prices at eBay!
