valuable for linguistic research on diachronic morphosyntax and linguistic ‘universals’, and are also an important supplementary cross-referencing tool for linguistic investigations of versatile morphemes in under-documented languages. Publish and Flourish: Nominalization in Asian Languages ... Research on nominalization, a process that gives rise to referring expressions, has always played a central role in linguistic investigations. Over the years there has also been growing evidence that nominalization constructions often extend to non-referential domains. They participate in noun-modifying expressions (e.g. genitive and relative clauses), subordinate clauses and topic ... Nominalization in Asian Languages | John
