undernutrition — the relation of iodine deficiency to fetal brain damage. The other is associated with overnutrition — the fall in mortality due to coronary heart disease. Nutritional epidemiology - Oxford Scholarship Nutritional epidemiology is a relatively new branch of epidemiology which focuses on understanding the relation between diet, and long-term health and disease. Our understanding of biologic mechanisms remains far too incomplete to predict confidently the ultimate consequences of eating a particular food or nutrient. Nutritional epidemiology - Oxford Scholarship Nutritional Epidemiology This course could provide students with a background in conducting or interpreting epidemiologic data and
