Amazon.com: Psychology of Learning and Motivation, Volume ... Author website. Motivation is important in almost every aspect of human behavior. When you make a decision, your choice is certainly influenced by your motivational state. When you study mathematics, your motivation to study mathematics clearly affects the way you learn it. The science of motivation Psychology of Learning and Motivation - Advances in Research and Theory is a peer-reviewed scientific journal. The scope of Psychology of Learning and Motivation - Advances in Research and Theory covers Developmental and Educational Psychology (Q1), Social Psychology (Q1). Psychology of Learning and Motivation - Advances in ... Psychologists believe that motivation is rooted in a basic impulse to optimize well-being, minimize physical pain, and maximize pleasure. Motivations are commonly separated into drives (which are primarily biological, like thirst or hunger) and motives (which are primarily driven by social and psychological mechanisms). Introduction to Motivation | Boundless Psychology Perhaps the most important aspect of observational learning involves motivation. If the human or animal does not have a reason for imitating the behavior, then no amount of

attention, retention, or reproduction will overcome the lack of motivation. Bandura identified several motivating factors for imitation.
