Putting It Together Researching
Organizing I tell my students that
the first step in writing a research
paper is to admit you have a
research paper. Write up a schedule
with a series of milestones to
accomplish by a specific date (e.g.
find 10 sources by September 20,
finish preliminary research by
October 15), and keep to it. You will
need time to get an overview of
what material is out there, find out
what's in your library, select
relevant material, read it, take
notes, and start putting it together
— and to do a second wave

This can happen when a student is working on a research paper with many segments or when several students are working on a large project together. In group research, each student can come up with a stack of notes, and when the work is all combined, the paperwork creates a confusing mountain of notes! Feeling Overwhelmed by Research? Organize Your Notes The following steps outline a simple and effective strategy for writing a research paper. Depending on your

familiarity with the topic and the challenges you encounter along the way, you may need to rearrange these steps. Step 1: Identify and develop your topic. Selecting a topic can be the most challenging part of a research assignment. Basic Steps in the Research Process - NHCC.edu You aren't going to change the bedrock of the paper—the thesis and the research to go along with it—but you are going to change things that make the paper flow, like smoothing out the transitions, evening out the structure and order of the paragraphs, and make sure all the ideas link together naturally.
