readable in a detailed and sophisticated way (as compared with human-readable HTML which is usually not easily "understood" by computer programs). Semantic web service - Wikipedia We propose a novel resilient drone service composition framework for delivery in dynamic weather conditions. We use a skyline approach to select an optimal set of candidate drone services at the source node in a skyway network. Drone services are initially composed using a novel constraint-aware deterministic lookahead algorithm using the multi-armed bandit tree exploration. [PDF] Resilient Composition of Drone Services for Delivery ... The proposed work focuses on to increase the service composition quality and automate
