Find the momentum of the following objects The first two problems

have [Books] Skill Sheet 1 Speed

Problems Answers Average speed is

the total distance divided by the

total time for the trip. Therefore,

speed is distance divided by time.

Instantaneous speed is the speed at

which an object is traveling at any

particular instant. If the

instantaneous speed of a car

remains the same over a period of

time, then we say that the car is

traveling with constant

speed. Average Speed Problems
