Spinal Cord Disease : Basic Science, Diagnosis and ... Introduction. Traumatic spinal cord injury (SCI) is a devastating disease in human and veterinary medicine. In human medicine, approximately 50 per 1 million people are afflicted with SCI annually (1). The exact incidence of traumatic SCI in dogs and cats is unknown. Spinal cord injury I: A synopsis of the basic science Your spinal cord is a bundle of nerves that runs down the middle of your back. It carries signals back and forth between your body and your brain. It is protected by your

vertebrae, which are the bone disks that make up your spine. If you have an accident that damages the vertebrae or other parts of the spine, this can also injure the spinal cord. disease is a growing concern for the spinal cord-injured (SCI) population. For long-term SCI, morbidity and mortality from cardiovascular causes now exceeds that caused by renal and pulmonary conditions, the primary causes of mortality in previous decades. Cardiovascular Disease in Spinal Cord Injury: An Overview ... Spinal Cord Injury or disease can happen to anyone at any time and the effects can be devastating. I found this out personally when I was thrown from the back of a pick up truck at age 15 and was left paralyzed from the waist down. It was during my recuperation. Spinal Cord Disease - geneeskundeboek.nl Abstract: A spinal cord injury leads to disturbances of sensory and motor signals due to the damage to white

matter and myelinated fiber tracts.

Moreover, the damage to gray matter causes segmental loss of interneurons of dorsal horn and motoneurons and restricts the therapeutic options. Spinal Cord
