Teacher Guide And Answers Dna Information about DNA • The two strands of DNA are attached through complementary base pairing. A pairs with T, and C pairs with G. • DNA has a polarity to it. Looking at the letters of a strand right-side-up, the left side is the 5' (5-prime) end, and the right side is the 3' (3-prime) end. Abstract Learning Objectives Estimated time Materials DNA, RNA, and Snorks Teacher Guide Original Document: DNA, RNA, and Snorks This activity can become tedious if you assign all of the snorks. It is recommended that you assign only one (possibly) two for students to decode. DNA, RNA, and Snorks Teacher Guide - The Biology Corner This Teacher's Guide will support instruction on the structure of DNA and RNA and on their functions in the processes of replication, transcription and translation. While the kit itself provides an excellent demonstration tool at the elementary school level, the curriculum contained in this Guide is geared to middle and high school students. Education DNA Interactive is an educational web site resource that celebrates the 50th anniversary of the discovery of the DNA double helix structure. There are six sections to this web site: Timeline, Code, Manipulation, Genome, Applications, Implications. Each section is split into modules and has rare video interviews with scientists, 3D animations, and narrative text to present and explain DNA science. DNA Interactive 1 | m i n i P C R L e a r n i n g L a b s T M - C r i m e L a b - Instructor's Guide Teacher's Guide miniPCRTM Crime Lab: Missy Baker Gone Missing Instructor's Guide Contents 1.
