Technology for Teachers and Students - YouTube The use of new technology in the classroom has become the perfect complement to mastering or gaining command of a language, and English courses accompanied by technological support are the most effective and attractive to students who want to be successful in their learning. Technology in language learning at the service of teachers 5 Benefits

of Using New Technology in Language Learning ... The ISTE Standards for Educators are a road map for helping students become empowered learners. These standards deepen educator practice, promote collaboration with peers, challenge traditional approaches and prepare students to drive their own learning. ISTE Standards for Educators | ISTE The teacher walks into a classroom and accepts the reality that the only way to reach students is to know them as individuals. After that, by unfolding layers to access students' core, the shared goal setting ensues. The teacher knows the content well and can teach "mechanics" in a way that compels attention. Mastering the Teaching Game | Edutopia Besides mastering their subjects, teachers-in-training will now have to "navigate the technology," Dotson says, as well as learning "how to keep kids engaged in this environment." After Illinois schools went to remote education in the spring, the state waived in-classroom teaching hours required for student teachers.
