International Law (Chapter 1 ... A nativist (“nature”) account of development would argue that the processes in question are innate and influenced by an organism’s genes. Natural human behavior is seen as the result of already-present biological factors, such as genetic code. Nature vs. Nurture | Child

Development In simple words if we define nature and nurture in child development, it can be summed up as follows: Nature. Nature refers to the hereditary factors or the genes of a child, which not only defines a child’s physical appearance but also helps in building a child’s personality traits. Nurture. How Does Nature and Nurture Affect Child Development? There are different influences on child development in relation to nature

classical and neo-classical economists. Nature of Development Economics - Economicsconcepts.com The nature versus nurture debate is one of the oldest issues in psychology. The debate centers on the relative contributions of genetic inheritance and environmental factors to human development. Some philosophers such as Plato and Descartes suggested that certain things are inborn, or that they occur naturally regardless of environmental influences. Nature vs. Nurture: Genes or Environment? Nature is known only through the senses, of which sight, touch, and hearing are the dominant ones, and the human notion of reality is skewed toward the objects of these senses. The
