Informatics. Healthcare in the 21st century is an exercise in high-speed data exchange, i.e., clinicians at the bedside “co-treat” with the patient’s entire care team (past and present) by way of previously entered evaluations, histories and test results. Gone are the days of written charts, repeated health history questions and telephone wait times to other hospital departments. Implementing Nursing Informatics - Elite Learning Current Strategies to Implement Informatics into the Nursing Curriculum: An Integrative Review Abstract.
